Enabling Full-Screen Mode for the Game

To ensure the software works correctly, the game should be run in Full-Screen Mode and Classic View Mode.

Steps to Enable Full-Screen and Classic View Modes:

Balance displayed in US
Real Play
ROULET
PRAGMATIC PLAY

Lobby   Type a message here...

1. Switch to Full-Screen Mode – Launch the game. – Click the dotted square icon located in the bottom-left corner to enable full-screen mode.

2. Switch to Classic View Mode – Click the camera icon (classic view icon) located in the top-right corner of the screen.

jupiroll

Note: Once the game is in full-screen and classic view modes, the software will continue to run in the background.

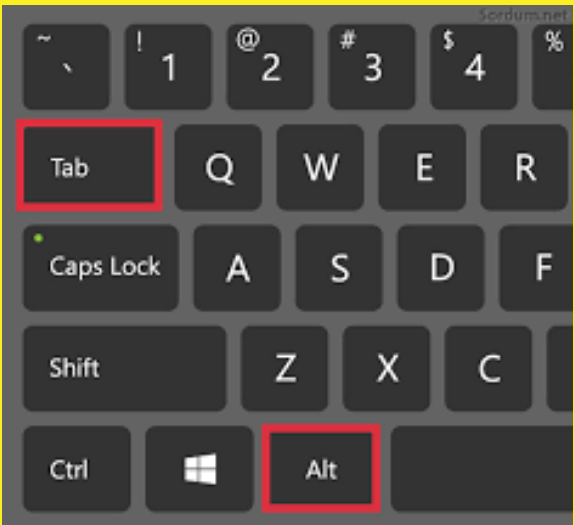

03.

Accessing the Software Again

When the game is in full-screen mode, the software might remain in the background. You can access it using the following methods

1. Alt + Tab Shortcut - Hold the Alt key and press the Tab key to switch between open applications. - Select the software icon to access it.

2. Windows Taskbar - Press the Windows key to open the taskbar. - Click the software icon to bring its window to the front.

04.

Recommendation: Using a Second Monitor (Optional)

Steps: - Launch the software and drag it to the second monitor. - Keep the game running in full-screen mode on the primary monitor. This way, the software remains easily accessible
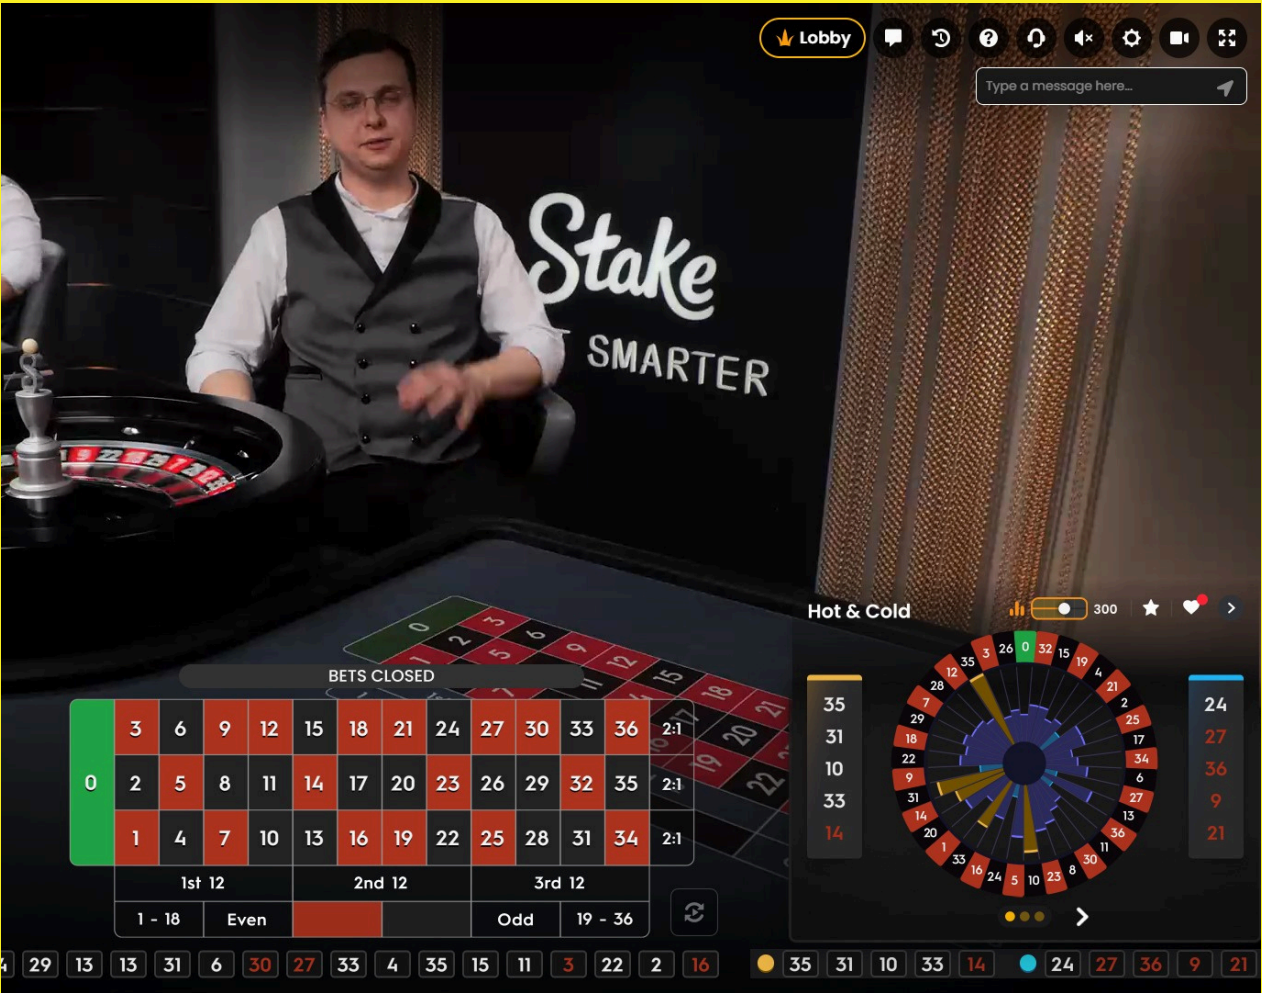

05.

Important Notes

- Alt + Tab is a quick and easy way to access the software. However, switching applications might disrupt the game's full-screen mode. In such cases, re-enable full-screen mode. - Using a second monitor allows seamless management between the software and the game without interruptions. - If you encounter any issues, please contact our technical support team.
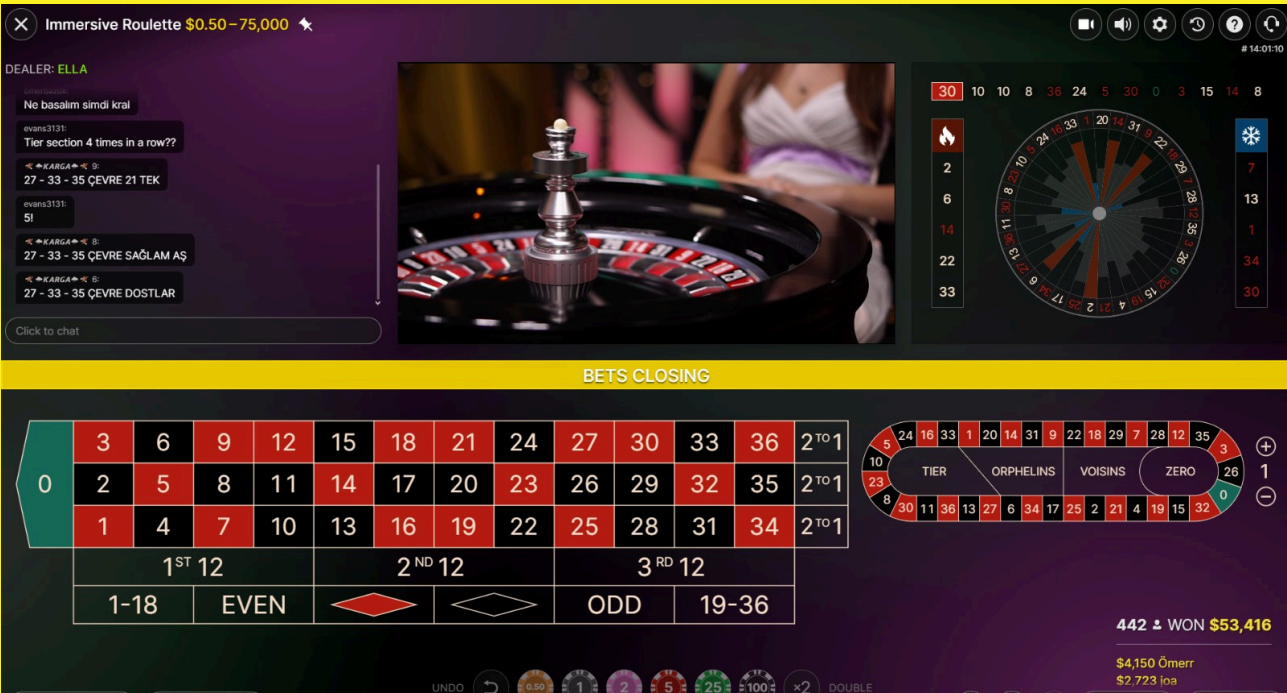

Following this guide will help you integrate the game and the software smoothly.
